\*The following chart indicates revisions to previous information that was sent via PMG letter to the Postal Regulatory Commission on 9/22/2008 and informally to the Public Representative in PRC Docket No. PI2010-1 on 1/15/2010; the chart reflects current suspensions as of 2/1/10. Information on emergency suspensions is dynamic and changes frequently as Headquarters receives suspension notices and administrative records supporting discontinuance proposals.

<sup>1</sup>The Postal Service does not consider a Post Office officially closed until it is announced in the Postal Bulletin. Total # of closures per fiscal year is based on those Post Offices whose discontinuance appears in the Postal Bulletin during that fiscal year.

<sup>2</sup>Represents emergency suspended offices in which field offices have indicated that the plan of action is to pursue discontinuance. Offices in this category are in various stages of the discontinuance process and the proposal has not been submitted to HQ.

<sup>3</sup>Represents the total number of Post Offices in which discontinuance studies were submitted to Headquarters for a Final Determination.

<sup>4</sup>Represents the total number of Post Offices in which discontinuance proposals have been approved by Vice President, Delivery and Post Office Operations, and are either pending final posting (customer appeal period) or final posting has been completed and they are pending announcement in the Postal Bulletin.
